

SECTION 1: EXECUTIVE SUMMARY & DUAL-COLUMN LAYOUT

Online utility tools frequently advertise free document conversion on their landing pages while hiding paywalls, email gates, or single-page truncation limits at the download step. True DOCX conversion must preserve editable paragraphs, table cells, and multi-page text without rasterizing the entire page into an uneditable static bitmap image.

SECTION 2: DETERMINISTIC FINANCIAL METRICS TABLE

Quarter	Revenue USD	Accuracy	Audit Code
Q1-2026	\$128,450.00	99.42%	PASS-ALPHA
Q2-2026	\$256,900.50	98.85%	PASS-BETA
Q3-2026	\$512,750.25	99.91%	PASS-GAMMA

Left Column: Protocol Integrity

- 1. Anonymous browser session in Profile 12.
- 2. Zero VIP accounts or sponsored overrides.
- 3. Full 3-node screenshot evidence chain.

Right Column: Deliverable Verification

- A. Inspect XML word/document.xml structure.
- B. Verify native <w:tbl> table reconstruction.
- C. Confirm zero watermark injection.

SECTION 3: PAGE 2 CONTINUATION & RETENTION AUDIT

Page two verifies that free tiers do not silently truncate multi-page documents after page one. Every token on this second page must appear as selectable text inside the exported DOCX file.
